Audition and Casting Information: Non-actors and/or local garden club members are encouraged to audition. No experience necessary. There are 40 cameo roles, split into two casts - A and B. Cameo Cast A performs May 1-4, Cast B performs May 8-11. Your availability and desire will determine whether you will be in Cast A or Cast B. You may choose to be in both, but that will depend on how many people come to auditions and are interested in performing. Each cast is required to be at each performance during their weekend and all rehearsals planned (12 days total). Each cameo will have between 1 and 5 lines and a song sung with the entire garden club cast. Please plan on attending one audition session to read from the script. The audition scene is also available on this A2CT website. Any questions you have may be addressed by calling or email me at any time. I know this will be a fun adventure and we value your participation. Francyn Chomic, Director 734-449-8402 or email chomic@provide.net.
